Description

Reaxyl® Cleaner GEL is a powerful cleaner to remove graffiti off of mineral surfaces like bricks, concrete, etc. Reaxyl® Cleaner GEL is suitable for stripping surfaces from pollution by paint, lacquer, bitumen, tar, epoxy, etc. Reaxyl® Cleaner GEL is ready to use. Its formula consists of trimethoxy butyl acetate and does not contain methylene chloride!!

Application

Before using Reaxyl® Cleaner GEL you can clean the surface with hot water, possibly under high pressure. Next apply the Reaxyl® Cleaner GEL generously and let absorb for some minutes. Do not let dry! Hose off the Reaxyl® Cleaner GEL with hot water, possibly under high pressure and brush off. Cut the residue with a metal spatula. Repeat the treatment if necessary. Consumption: Between 0,5 and 1 ltr/m².

Characteristics

Reaxyl® Cleaner GEL is not suitable for synthetic surfaces, plastics, painted surfaces, etc. Because of the thixotropic character of the Reaxyl® Cleaner GEL, it can be used on vertical and horizontal areas. Reaxyl® Cleaner GEL can be emulsified and washed away with water.

Precautions and remarks

- Always test beforehand!
- Reaxyl® Cleaner GEL is not flammable and non-dangerous with normal use. Avoid touch with the skin. Can harm synthetics.
